

Pipeline health and forecast

SNAPSHOT DATE

2026-08-20

PRIOR SNAPSHOT

2026-07-18 · 33 days

PREPARED FOR

Revenue leadership

SCOPE

16 open opportunities · 4 owners

Call the period short by **\$1.57M**: the weighted forecast is **\$1.33M** against a **\$2.90M** target, and the open book is too small to close the gap.

WEIGHTED FORECAST

\$1,330,000

45.9% of target
Prior 2026-07-18: \$945,750

GAP TO TARGET

\$1,570,000

Target \$2,900,000 – weighted \$1,330,000
Prior gap: \$1,954,250

COVERAGE

0.94×

Open pipeline \$2,730,000 ÷ target \$2,900,000
Prior: 0.93×

TOP-2 CONCENTRATION

46.9%

Of weighted forecast, in 2 of 16 deals
Prior: 45.0%

FOUR REASONS THE FORECAST IS EXPOSED

01

Coverage is below 1.0×

Open pipeline of \$2,730,000 is smaller than the \$2,900,000 target. A 100% close rate on every open deal still misses by \$170,000.

→ page 2

02

The gain is re-rating, not new pipeline

Weighted value rose +\$384,250 while open amount rose only +\$25,000. No opportunities were added or removed since 2026-07-18.

→ page 3

03

Two deals carry 46.9% of the forecast

Dovetail Travel alone is 31.6% of weighted value at 100% weight. Coverage also varies from 14% to 95% attainment by owner.

→ page 4

04

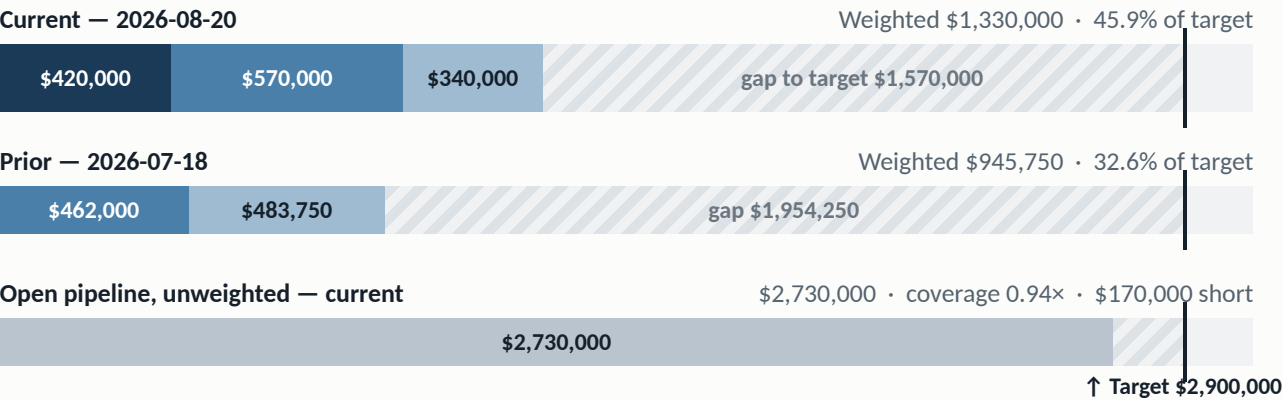

Most of the value sits in aged records

8 opportunities holding 66.9% of weighted value have been in stage 60+ days; 4 records are stale. This is record condition, not deal outcome.

→ page 5

Coverage of 0.94× means the book cannot cover the target even at a perfect close rate.

WEIGHTED FORECAST AGAINST TARGET — CURRENT VS PRIOR

Commit ×1.00 Best Case ×0.60 Pipeline ×0.25 Gap to target

All three bars share one scale. Weights per forecast-rules.md rule 2; no Closed Won or Closed Lost rows exist in either snapshot.

Coverage barely moved (0.93× → 0.94×) while the weighted forecast rose 40.6%.

The two diverge because forecast-category changes alter weight, not volume: open pipeline grew +\$25,000 in the same 33 days. Page 3 separates the two effects.

INPUTS TO EVERY FIGURE ON THIS PAGE

OPEN PIPELINE — RULE 1	
16 rows, none Closed Won / Closed Lost	\$2,730,000
Prior snapshot, same basis (16 rows)	\$2,705,000
TARGET — TARGETS.CSV, 4 OWNER ROWS	
Jordan Lee + Taylor Brooks	\$1,350,000
Morgan Patel + Casey Nguyen	\$1,550,000
Total target	\$2,900,000
COVERAGE — RULE 3	
\$2,730,000 ÷ \$2,900,000	0.94×
Prior: \$2,705,000 ÷ \$2,900,000	0.93×
WEIGHTED FORECAST — RULE 2	
Commit \$420,000 × 1.00 (1 deal)	\$420,000
Best Case \$950,000 × 0.60 (4 deals)	\$570,000
Pipeline \$1,360,000 × 0.25 (11 deals)	\$340,000
Weighted forecast	\$1,330,000

The +\$384,250 weighted gain came from re-rating five existing deals — the book itself barely moved.

OPEN PIPELINE MOVEMENT	WEIGHTED MOVEMENT	WEIGHTED AT PRIOR CATEGORIES
+\$25,000 \$2,705,000 → \$2,730,000, +0.9% One amount change; no deals added or removed	+\$384,250 \$945,750 → \$1,330,000, +40.6% \$378,000 of it from category change alone	\$952,000 Held at 2026-07-18 categories, current amounts \$1,330,000 – \$378,000 = \$952,000

ALL FIVE CHANGED OPPORTUNITIES, BY MOVEMENT TYPE — RULE 7

OPPORTUNITY	STAGE	FORECAST CATEGORY	AMOUNT	CLOSE DATE	WEIGHTED PRIOR	WEIGHTED CURRENT	WEIGHTED MOVEMENT
Aster Health 006SYNAUG001	Proposal → Negotiation	Pipeline → Best Case	\$340,000 · unchanged	no change	\$85,000	\$204,000	+\$119,000
Dovetail Travel 006SYNAUG004	Proposal → Negotiation	Best Case → Commit	\$420,000 · unchanged	no change	\$252,000	\$420,000	+\$168,000
Harborlight Mobility 006SYNAUG008	no change	no change	\$290,000 · unchanged	2026-09-30 → 2026-10-31	\$174,000	\$174,000	no change
Junction Apparel 006SYNAUG010	Proposal → Negotiation	Pipeline → Best Case	\$260,000 · unchanged	no change	\$65,000	\$156,000	+\$91,000
Lantern Beauty 006SYNAUG012	no change	no change	\$150,000 → \$175,000	no change	\$37,500	\$43,750	+\$6,250
11 remaining opportunities: no change to stage, category, amount or close date.					\$332,250	\$332,250	±\$0

Three category upgrades produced \$378,000 — 98.4% of the gain — at unchanged deal value. These files cannot say whether they are supported.

Slippage
Harborlight Mobility (006SYNAUG008) moved out of the September window; no other field changed.

Amount without activity
Lantern Beauty (006SYNAUG012) rose +\$25,000; LastActivityDate unchanged — page 7.

Two of sixteen deals carry 46.9% of the forecast, and one owner’s number has not moved at all.

CONCENTRATION — RULE 4

Weighted forecast \$1,330,000 Top 2 = \$624,000

■ Dovetail Travel • 006SYNAUG004 ■ Aster Health • 006SYNAUG001

INPUTS	
Dovetail Travel — \$420,000 Commit × 1.00	\$420,000
Aster Health — \$340,000 Best Case × 0.60	\$204,000
\$624,000 ÷ \$1,330,000	46.9%
Prior top 2 (Dovetail Travel, Harborlight Mobility)	45.0%

The two largest open opportunities are the same by amount and by weighted value, so rule 4 resolves identically either way.

COVERAGE AND ATTAINMENT BY RECORD OWNER

OWNER	TARGET	OPEN PIPELINE	COVER-AGE	WEIGHTED	% OF TARGET	WEIGHTED MOVE SINCE 07-18
Casey Nguyen OWN-A04 • 4 deals	\$700,000	\$995,000	1.42×	\$665,250	95%	+\$174,250
Jordan Lee OWN-A01 • 4 deals	\$700,000	\$715,000	1.02×	\$318,750	46%	+\$119,000
Taylor Brooks OWN-A02 • 4 deals	\$650,000	\$535,000	0.82×	\$224,750	35%	+\$91,000
Morgan Patel OWN-A03 • 4 deals	\$850,000	\$485,000	0.57×	\$121,250	14%	no movement
All owners	\$2,900,000	\$2,730,000	0.94×	\$1,330,000	46%	+\$384,250

- **Casey Nguyen** holds 50.0% of the weighted forecast against 24.1% of the target, including both concentration deals.
- **Morgan Patel** is the only owner whose weighted value is identical to the prior snapshot (\$121,250), on 0.57× coverage against the largest target.
- Every owner is below 100% of target on weighted value; the spread is 14% to 95%.

Record condition is weak: 66.9% of weighted value sits in stages entered 60+ days ago.

This page describes the state of the records only. Per rule 8, none of it is evidence that a deal will close or be lost.

AGING FLAGS — RULE 6, THRESHOLD 60 DAYS

Stage age ≥ 60 days 8 of 16 deals • \$890,000 weighted

Opportunity age ≥ 60 days 16 of 16 deals • \$1,330,000 weighted

Stale — no activity for > 30 days (rule 5) 4 of 16 deals • \$124,750 weighted

INPUTS

Stale cut-off: activity before 2026-07-21	> 30 days
Stale open amount / weighted	\$415,000 / \$124,750
Stage age ≥ 60d: entered on or before 2026-06-21	8 deals
Stage-aged open amount / weighted	\$1,530,000 / \$890,000
Opportunity age range (created 2026-02-05 to 2026-05-16)	96–196 days

Every opportunity clears the 60-day creation threshold, so that flag separates nothing in this book; stage age is the measure that discriminates.

THE 4 STALE RECORDS — RULE 5

OPPORTUNITY	OWNER	LAST ACTIVITY	DAYS	AMOUNT	WEIGHTED	CLOSE DATE
Newbridge Education 006SYNAUG014	Taylor Brooks	2026-06-05	76	\$95,000	\$23,750	2026-10-30
Lantern Beauty 006SYNAUG012	Casey Nguyen	2026-06-20	61	\$175,000	\$43,750	2026-10-15
Elmstead Home 006SYNAUG005	Jordan Lee	2026-06-30	51	\$60,000	\$36,000	2026-07-15
Brookline Media 006SYNAUG002	Taylor Brooks	2026-07-03	48	\$85,000	\$21,250	2026-09-30
Total stale			—	\$415,000	\$124,750	

- **Newbridge Education** (006SYNAUG014) has had no recorded activity for 76 days and carries a 2026-10-30 close date.
- **Elmstead Home** (006SYNAUG005) is stale at 51 days and its close date, 2026-07-15, is already 36 days past the snapshot — see page 7.
- LastActivityDate is the only activity signal in the pack, and every value in it matches a seller-note date exactly (page 8).

Four deals hold 71.7% of the weighted forecast; the other twelve add \$376,000 combined.

THE SIX LARGEST WEIGHTED POSITIONS

OPPORTUNITY	OWNER	STAGE & CATEGORY	AMOUNT	WEIGHTED	% OF FORECAST	CLOSE DATE	SINCE 07-18	HYGIENE FLAGS
Dovetail Travel 006SYNAUG004	Casey Nguyen	Negotiation · Commit	\$420,000	\$420,000	31.6%	2026-09-30	Re-rated Best Case → Commit	STAGE 60D+
Aster Health 006SYNAUG001	Jordan Lee	Negotiation · Best Case	\$340,000	\$204,000	15.3%	2026-11-30	Re-rated Pipeline → Best Case	—
Harborlight Mobility 006SYNAUG008	Casey Nguyen	Proposal · Best Case	\$290,000	\$174,000	13.1%	2026-10-31	Close date slipped	STAGE 60D+
Junction Apparel 006SYNAUG010	Taylor Brooks	Negotiation · Best Case	\$260,000	\$156,000	11.7%	2026-09-27	Re-rated Pipeline → Best Case	STAGE 60D+
Ironwood Foods 006SYNAUG009	Jordan Lee	Discovery · Pipeline	\$185,000	\$46,250	3.5%	2027-03-31	Unchanged	—
Lantern Beauty 006SYNAUG012	Casey Nguyen	Proposal · Pipeline	\$175,000	\$43,750	3.3%	2026-10-15	Unchanged	STALE STAGE 60D+

WHERE THE DOWNSIDE IS

- **Dovetail Travel (006SYNAUG004) is 31.6% of the forecast at 100% weight** and the book's only Commit deal. Without it the weighted forecast is \$910,000 — 31.4% of target.
- **The three category upgrades are worth \$378,000.** Held at their 2026-07-18 categories the weighted forecast would be \$952,000.
- **4 stale records carry \$124,750 weighted.** Their condition is unknown, not adverse — rule 8.

WHERE UPSIDE WOULD HAVE TO COME FROM

- **Category, not volume.** Every Pipeline-category deal converting to Commit would add \$1,020,000; the files carry no evidence for or against any such move.
- **Not from new deals.** Zero opportunities were created between the two snapshots.
- **\$335,000 closes outside 2026.** Goodtrail Pets (006SYNAUG007) and Ironwood Foods (006SYNAUG009) count in coverage under rule 1 but close in 2027 — and targets.csv states no period (page 8).

Close the \$1.57M gap or restate the number — the current book offers no third option.

MANAGEMENT JUDGMENT — DECISIONS FOR THE NAMED RECORD OWNERS

DECISION TO TAKE	RECORD OWNER	WHAT THE RECORD ALREADY SAYS
Confirm the Commit category on Dovetail Travel (006SYNAUG004). 31.6% of the forecast rests on one 100%-weighted deal that has been in Negotiation 76 days.	Casey Nguyen OWN-A04	NextStep: "Complete procurement approval" · close 2026-09-30
Re-test the three category upgrades (006SYNAUG001, 006SYNAUG004, 006SYNAUG010), which added \$378,000 of weighted value at unchanged amounts.	Jordan Lee, Casey Nguyen, Taylor Brooks	All three moved Proposal → Negotiation between 2026-07-18 and 2026-08-20
Decide on Morgan Patel's territory: add pipeline or restate the target. Weighted value is unchanged at \$121,250 on the largest target in the book (\$850,000, 0.57× coverage).	Morgan Patel OWN-A03	4 deals, none changed since 2026-07-18; 14% of target weighted
Establish whether the 4 stale opportunities are live (\$415,000 open / \$124,750 weighted) before they are counted in any commitment.	Jordan Lee, Taylor Brooks (2), Casey Nguyen	006SYNAUG002, 005, 012, 014 — 48 to 76 days since last activity

PIPELINE HYGIENE — UNRESOLVED DATA PROBLEMS

Stated as record defects. None of them is treated here as evidence about a deal's outcome.

- **A close date in the past on an open deal.** Elmstead Home (006SYNAUG005) carries CloseDate 2026-07-15, 36 days before the snapshot, while still open at Proposal / Best Case. Unresolved: whether the deal, the date, or the stage is wrong.
- **Two StageEnteredDate values moved backwards** while the stage advanced. Dovetail Travel (006SYNAUG004): 2026-06-12 → 2026-06-05. Junction Apparel (006SYNAUG010): 2026-06-24 → 2026-06-11. Both stage-age figures on page 6 are therefore uncertain.
- **An amount changed with no recorded activity.** Lantern Beauty (006SYNAUG012) rose \$150,000 → \$175,000 while LastActivityDate stayed at 2026-06-20, making it simultaneously the pack's only amount increase and a 61-day stale record.
- **targets.csv states no period.** It carries only SnapshotDate 2026-08-20 and four owner targets, so coverage and attainment on pages 3 and 5 compare a whole open book — including \$335,000 closing in 2027 — against a target of unknown duration.
- **seller-notes.csv adds no independent evidence.** All 16 SellerNote values are identical to the NextStep field on the matching pipeline row, and all 16 NoteDates equal that row's LastActivityDate, so "activity" may record a note edit rather than customer contact.

What this deck is built on, and what it cannot tell you.

SOURCES

All files in source-pack/august-pipeline/. No other source was used.

- **current-pipeline.csv** — 16 opportunity rows, SnapshotDate 2026-08-20. Every figure for the current period.
- **prior-pipeline.csv** — 16 rows, SnapshotDate 2026-07-18. Same 16 OpportunityIds; matched for all movement on page 3.
- **targets.csv** — 4 owner rows totalling \$2,900,000, SnapshotDate 2026-08-20. Denominator for all coverage and attainment.
- **seller-notes.csv** — 16 note rows. Used only to check the NextStep and activity fields; it contributed no figure.
- **forecast-rules.md** — rules 1–8, applied as written. Weights, thresholds and comparison basis are taken from it and not adjusted.

MISSING INFORMATION

- **No closed business.** Neither snapshot contains a Closed Won or Closed Lost row, so attainment to date, win rate and historical stage conversion cannot be calculated. Every percentage in this deck is pipeline-derived.
- **No target period.** targets.csv gives no quarter, month or fiscal window, so coverage has no defined horizon.
- **No currency field** on Amount or Target; the two are assumed comparable because the rules divide one by the other.
- **No probability, ACV/TCV split, segment or product field,** and no stage history beyond the two snapshots.
- **No forecast submitted by the owners** to compare against the calculated weighted figure.

LIMITATIONS

- **Two snapshots, one 33-day interval.** Every “movement” figure is a single before-and-after difference, not a trend.
- **Rule 8 is applied throughout.** Staleness, slippage and concentration are reported as conditions of the book; no deal is called likely to close or to be lost.
- **Rule 4 is unambiguous here.** The two largest open opportunities are the same whether ranked by amount or by weighted value, so concentration does not depend on the reading.
- **The 60-day creation flag does not discriminate** — all 16 opportunities exceed it. Only stage age separates the book.
- **Owners named on page 7 are the OwnerName values on the records.** No owner, date, movement or cause has been supplied from outside these files.
- **Sub-dollar rounding:** none. All amounts in the pack are whole dollars and every weighted value resolves exactly.
