CONCENTRATION

rule 4 · \$624,000 ÷ \$1,330,000

Two largest = 46.9% of weighted forecast

OPPORTUNITY	CATEGORY, WEIGHT	AMOUNT	WEIGHTED	SHARE
Dovetail Travel	Commit, 100%	\$420,000	\$420,000	31.6%
Aster Health	Best Case, 60%	\$340,000	\$204,000	15.3%

By owner — coverage is open pipeline ÷ target

OWNER	OPEN	TARGET	COVERAGE	% OF WTD FC
Casey Nguyen	\$995,000	\$700,000	1.42×	50.0%
Jordan Lee	\$715,000	\$700,000	1.02×	24.0%
Taylor Brooks	\$535,000	\$650,000	0.82×	16.9%
Morgan Patel	\$485,000	\$850,000	0.57×	9.1%

AGING AND STALE RECORDS

rules 5–6

- Opportunity age (CreateDate ≥60d) 16 of 16, range 96–196 days. Nothing created since 2026-07-18.
- Stage age (StageEnteredDate ≥60d) 8 of 16, \$1,530,000 open. Longest Brookline Media 78d, Dovetail Travel 76d.

Stale — 4 opportunities, \$415,000 open, \$124,750 weighted

OPPORTUNITY	LAST ACTIVITY	DAYS	AMOUNT	OWNER
Newbridge Education	2026-06-05	76	\$95,000	Brooks
Lantern Beauty	2026-06-20	61	\$175,000	Nguyen
Elmstead Home	2026-06-30	51	\$60,000	Lee
Brookline Media	2026-07-03	48	\$85,000	Brooks

DATA PROBLEMS TO FIX

PIPELINE HYGIENE

- Close date already past. Elmstead Home closes 2026-07-15, 36 days before the snapshot, yet sits open in Best Case at \$36,000 weighted.
- StageEnteredDate moved backwards as the stage advanced: Dovetail Travel 06-12→06-05, Junction Apparel 06-24→06-11. Stage age for those two is unreliable.
- seller-notes.csv adds nothing — all 16 rows duplicate NextStep and LastActivityDate exactly. Confirm it is not a second source.
- Stale boundary undefined at exactly 30 days; rule 5 says “more than 30”. Kingswell Hospitality, \$140,000, turns on it.

ACTIONS FOR THIS REVIEW

MANAGEMENT JUDGMENT — NOT DERIVED FROM THE RULES

- 1

Casey Nguyen — evidence Dovetail Travel into Commit \$420,000 now carries 100% weight and is 31.6% of the whole forecast. Next step on record: “Complete procurement approval”. Bring its status before this is treated as banked.
- 2

Morgan Patel — decide how the 0.57× gap is addressed \$485,000 open against an \$850,000 target, \$121,250 weighted. Whether that closes with added pipeline or a changed target is a call for the review.
- 3

Taylor Brooks — re-verify or disqualify two stale deals Newbridge Education (\$95,000, 76 days) and Brookline Media (\$85,000, 48 days), both still counted in open pipeline and so in coverage.

LIMITATIONS AND OPEN QUESTIONS

Every figure is read from those files or is arithmetic on them with inputs shown; only Actions is judgment, and owners there are as recorded. Age, staleness, slippage and concentration describe the record, not evidence a deal will or will not close (§8). No Closed Won or Closed Lost rows, so no win rate or conversion. Targets carry no quota period, so coverage has no time frame. No currency, region or probability fields; amounts are unverified as entered. Rule 4 does not say whether “two largest” means by amount or weighted value; both pick the same two here. SYNTHETIC DATA — fictional companies.
